Marketing Brief

Product: Nord PSHCE Curriculum Pack for Hong Kong Schools

---

1. Product Overview

This product is a complete, ready-to-teach Personal, Social, Health, and Economic (PSHCE) education curriculum package designed for secondary school students in Hong Kong. It consists of four distinct year-group packs (Years 7, 8, 9, and 10), each containing a full year's worth of lesson materials.

The core of the product is a series of professionally designed PowerPoint presentations, but it is supplemented by a unique **Skills Passport** system and comprehensive **Teacher Handbooks**, making it a holistic educational solution, not just a set of slides.

The design aesthetic is modern, clean, and heavily influenced by a high-quality anime/manga style, developed specifically to maximize engagement with a teenage audience. The content is interactive, values-driven, and contextualized for students living in Hong Kong.

2. Target Audience

Our primary customers are educational leaders within international and English-medium secondary schools in Hong Kong.

- **Primary Decision-Makers:** Heads of PSHCE, Heads of Pastoral Care, Deputy Heads (Academic/Pastoral).
- **Secondary Influencers:** Headteachers/Principals, individual PSHCE teachers.

These leaders are facing several key challenges:

- **Teacher Workload:** PSHCE is often taught by non-specialist tutors who have limited time for lesson preparation.
- **Student Engagement:** Traditional PSHCE materials are often seen as boring, outdated, or irrelevant by students, leading to disengagement.
- **Curriculum Cohesion:** Schools often struggle to provide a PSHCE curriculum that is progressive, consistent, and builds skills year-on-year.
- **Demonstrating Value:** It can be difficult to track and evidence student development in abstract areas like character and values.

3. Unique Value Proposition (UVP)

> *The Nord PSHCE Curriculum Pack transforms PSHCE from a weekly obligation into the most anticipated lesson of the week. We provide schools with a complete, visually stunning, and pedagogically robust solution that saves hundreds of hours of teacher prep time, captivates students, and makes character development visible and trackable.*

4. Key Selling Points: Features & Benefits

This table should form the core of our marketing messaging.

Feature	Benefit for the School
Professionally Designed, Anime-Inspired Slides	Boosts student engagement by using a visual language they know and love. Elevates the perceived quality and importance of PSHCE lessons. Moves away from “death by PowerPoint.”
Interactive, Multi-Level Activities	Promotes active learning and critical thinking over passive listening. Caters to diverse learning needs within a single classroom, ensuring every student is challenged.
Integrated “Skills Passport” System	Provides a tangible, physical record of student progress in character education. Makes abstract concepts like ‘Respect’ and ‘Resilience’ visible and trackable for students, teachers, and parents.
Comprehensive Teacher Handbooks	Empowers non-specialist teachers to deliver high-quality, confident lessons with minimal prep time. Ensures consistency and quality of delivery across all tutor groups.
Cohesive Four-Year Thematic Curriculum	Provides a clear, progressive learning journey from Year 7 to 10. Ensures no gaps or awkward repetition in the curriculum, building skills and knowledge systematically.
Hong Kong-Specific & Culturally Aware Content	Makes lessons more relevant and relatable for students in Hong Kong by referencing local context. The diverse and inclusive character illustrations reflect the reality of a global city.

5. What’s in the Box? (The Deliverables)

When a school purchases a Year Group Pack, they receive:

1. **~20-25 PowerPoint Presentations:** A full academic year of lessons, fully editable.
2. **The Year Group Skills Passport:** A print-ready PDF booklet designed to accompany the lessons.
3. **Comprehensive Teacher Handbooks:** A PDF guide for every unit, providing deeper subject knowledge, delivery guidance, and activity facilitation notes.
4. **All Visual Assets:** Including the high-quality illustrations and blob characters for use in other school materials.

6. Suggested Marketing Language & Tone

Our tone should be professional, confident, and focused on solving problems for schools.

Headline Ideas:

- *Transform Your School's PSHCE Delivery.*
- *The PSHCE Curriculum Your Students Would Choose.*
- *More Than Just Slides: A Complete Solution for Character Education.*

Key Phrases:

- "Designed for engagement."
- "Save hundreds of hours of teacher prep time."
- "Make character development visible."
- "A curriculum that grows with your students."
- "Built for Hong Kong."
